The Neston Novels Series by Tess Adone
Book Discussion Guides

The guides to The Neston Novels Series are works-in-progress. Completed guides will be available in December. Thank you for your patience while I develop them.

They are personalized discussion guides, with each question or consideration paired with backstories of my life and writing. Like any book discussion guide, they are designed to engage readers more deeply with the story through questions and to elicit critical responses about how the story is crafted.

In the meantime, I recommend the Ultimate List of Book Club Discussion Questions | Bookclubs. The lists of generic questions comprehensively cover the elements of fiction.

For readers who want more in-depth backstory, please subscribe to my newsletter [link].
